Primary Examiner, Art Unit 1792

Art Unit: 1792

The following is an examiner's statement of reasons for allowance:

It is well known in the art to control the temperature in order to control the vapor pressure as noted in col.9 lines 20-30 and col.10 lines 1-12 of Graf et al. (4,842,827). However, the prior art references fail to teach or suggest a temperature controlled deposition accumulation sensor located out of line-of-sight with said chemical source while electrically connected to heater controller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bret Chen whose telephone number is (571)272-1417. The examiner can normally be reached on 7:30am - 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks can be reached on (571) 272-1423. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
